

Information for parents of Class 1 children

Welcome to the first term in class 1. Your children have settled into school well. Thank you so much for dropping off at the main gate. There is no access to the yard at this time as we still have builders on site. The children came in really well and we are so proud of them.

Please find a topic web for our autumn term on the website. We are starting the term by finding out about Dinosaurs. The children will be learning about dinosaurs and listening to stories about them. We will be looking at 'Harry and the Bucket of Dinosaurs' and 'Dinosaur Roar'. Children will be looking at non-fiction books about dinosaurs and listening to poems and rhymes. We will be finding out about ourselves and learning about our bodies and senses. We will also be making and tasting healthy salads.

On **Tuesdays**, your child will take part in PE sessions and will need to come into school wearing their full indoor PE kit. PE will take place outside so please ensure your child has the appropriate clothing depending on the weather.

In class one the children have access to continuous provision each day which involves indoor and outdoor learning. In our outdoor area we have a mud kitchen, water play, sand play and a big grassy area. We have waterproofs in school but children need to wear wellies when accessing the outdoor area.

Please provide a pair of named wellies to keep in school.

Thank you so much for your cooperation. If you have any questions please telephone the main office or email.
