

Arrangements for reopening of whole school on March 8th 2021

- Pupils should only be dropped off and collected by one adult
- Adults are asked to wear masks when dropping off and collecting children
- Families should not car share to and from school
- Children should arrive with their class bubble or their sibling group.
- Parents should continue to observe social distancing at the school gate and leave immediately. Please do not hang around to chat.
- All messages should come via email or telephone and not given to staff at the gates.
- Face to face discussions with staff shouldn't take place wherever possible to reduce the risk to all.
- No bags, toys, unnecessary items are allowed in school.
- If your child is on Packed lunch, this should be sent in disposable packaging to reduce the chance of transmission from home to school and back again.
- Water bottles should be thoroughly cleaned each evening and only your own child should handle it in school.
- Younger children should bring a change of clothes/ wellies to leave in school in case of accidents. Pupils should wear clean clothes each day and therefore do not need to wear school uniform. We are allowing families until after Easter to have children back into uniform so we can support any swapping of items amongst families.
- Classroom staff will let you know when children should come to school in PE clothes.
- Reading books will be sent home on Fridays and returned on a Monday to a safe drop box.
- Parents must provide school with up to date contact numbers and be able to collect child within a 30 minute window if requested to do so. This is very important when we have to isolate a bubble or send home a sick child. The mobile phone number registered to our texting service will always be the first point of contact for whole class isolation. If you know you would be unavailable on this number please email school on any day where this is applicable so we have an alternative and know to ring you separately.
- Children must not attend school if they, or anyone in their family, has symptoms of COVID- 19. Where a pupil is displaying symptoms they will be sent home

immediately and parents must then follow the government information on seeking a test.

- Please remember to follow 48 hours rule for all sickness/bugs.
- We ask that all families continue to follow the current Government guidelines and ensure no mixing of households outside of their support or child care bubble. This is crucial if we are to keep our school community safe.
- In the case of a positive test from 8 March 2021, classes will be taught virtually and devices allocated as required and available.
- Lateral Flow Tests will be available to families with school age children. Please seek Government guidance for details.
- Full attendance is expected and all measures will continue to be in place to keep staff and pupils safe.
